Release Notes

Version | **4.13.1 RC1 (#20117)**
Release date | **9.07.2024**

Customer Feature (1)

FM can now detect and handle (via renew with change) an incorrect dosing information, where a dose of once a week is shown in a structure that depicts a dosing for once per day.
[RENO-18347, CLONE (4.12.7) - As FM I want to validate that <Kortdose> matches <Intervall>]

Defect (1)

[RENO-18355, CLONE (4.12.7) - Dosing warning shown on all items where the kortdose selected for the prescription does not exist in local FEST]
