Customer Defect (2)

[RENO-18452, Get Uventet feil if doctor use Erstatt lokal LIB med PLL (or update) and it is a eRp-draft from nurse in the LIB - No remote vib item to link]

Update action in samstemming should no longer open renew prescriptions view.

[RENO-18454, eRp is changed to Reg externally - when updating from samstemming the dialog "Nytt legemiddel" pops up]
